

```
import React from 'react';
import { BrowserRouter, Routes } from 'react-router-dom';
const Router = () => {
  return (
    <BrowserRouter>
      <Routes>
        <Route path="/" element={<Accueil />} />
        <Route path="/about" element={<About />} />
        <Route path="/fichelogement/:id" element={<FicheLogement />} />
        <Route path="*" element={<NotFoundPage />} />
      </Routes>
    </BrowserRouter>
  );
};

export default Router;
```
